2022 BH Provider Relief 6/30/2022

Will we know our allocation before receiving any contract documents?

No, the payment amount will be included in the contract HCA sends to eligible providers.

For auditing purposes, are providers receiving these funds considered beneficiaries or subrecipients? Recipients of these payments are beneficiaries not subrecipients.

What reporting requirements will providers need to produce for these funds?

Eligible providers will agree to a contract with the HCA committing to the requirements:

- to spend the funds by June 30, 2023.
- the eligible uses of the funds.
- and a commitment to respond to an HCA survey on how the funds were utilized.
